

## **Loop 2400 Segment SV104 Service Unit Count**

**The value in this field is the total time of Face-to-face plus other:**

**Use the procedure code that matches to the appropriate face to face time but the time should bill would be for face to face plus other time. In IS, the total amount of face to face is used to determine the appropriate procedure code but what is submitted to the State is the face to face and other time added together.**
